

INNOMEDICA IS A YOUNG NANOTECH COMPANY with 50 employees, a number of promising drugs in preclinical and clinical development and its own clean room production. The pipeline is based on a liposomal delivery system and includes in particular applications in the fields of oncology (gentle chemotherapy) and neurology (new approach to treat Parkinson's disease).

In order to conduct further clinical trials with our Clinical Research Team based in Bern, we are looking for a

Clinical Trial Manager

The main objective of your work is the clinical development of InnoMedica's products with the aim of applying innovative drugs in clinical trials to patients and ultimately bringing them to market.

Your responsibilities include:

- Planning, execution and follow-up of clinical trials in oncology
- Coordination of all involved work areas through close contact and communication with the clinical trial sites as well as the internal departments involved (e.g. regulatory affairs, R&D or manufacturing)
- Preparation and submission of the necessary trial documents to regulatory authorities e.g. Swissmedic or Ethics Committee
- Keeping track of resources, budget and timelines
- Build up and maintain contacts with experts and key opinion leaders

As a prerequisite for this versatile position with great development potential, we expect an education in the fields of medicine, biology, biochemistry, pharmacy or a similar area of expertise. Ideally, you have experience in clinical research and Good Clinical Practice (GCP) and have a scientific background in oncology. You have strong communication skills, are fluent in English and have a very good command of German. You know how to reliably keep track of complex projects and also handle administrative tasks conscientiously. You work independently, show initiative, have a great willingness to learn and understand how to get involved in the dynamics of a startup.

Interested candidates are kindly requested to send their application documents to Ms. Melanie Bitterlin, who can also be contacted for additional information by phone (058 521 35 01) or email (melanie.bitterlin@innomedica.com).
